

Water Quality Monitoring Program Assistant

Malama Maunalua seeks a part-time contract employee to help manage a new citizen-based water quality monitoring program in Kuliou'ou and Wailupe streams. Duties will include assisting with a volunteer training event, managing equipment for volunteer use, initial supervision of field monitoring, quality control and data entry. Expected time commitment is approximately 5-10 hours per week from July-August. Possible extension through November for data management. Rate: \$20/hr. Familiarity with water quality monitoring protocols and equipment is highly desirable. Contact: Jolie Wanger, 744-0052, jolie@malamamaunalua.org
