

Common name(s)	Scientific name	Family	WRA score	Predicted pest status
African tulip tree; African tulip tree	<i>Spathodea campanulata</i>	Bignoniaceae	14	LIKELY TO BE A PEST
Alexander palm; solitaire palm	<i>Ptychosperma elegans</i>	Arecaeaceae	3	Requires further evaluation
allspice tree; allspice	<i>Pimenta dioica</i>	Myrtaceae	7	LIKELY TO BE A PEST
annual ryegrass; italian ryegrass	<i>Lolium multiflorum</i>	Poaceae	9	LIKELY TO BE A PEST
arrowhead plant; green gold	<i>Syngonium podophyllum</i>	Araceae	15	LIKELY TO BE A PEST
Ashoka tree; asoka	<i>Saraca indica</i>	Fabaceae	-7	Not likely to be a pest
Australian acacia; black wattle	<i>Acacia mearnsii</i>	Fabaceae	11	LIKELY TO BE A PEST
Australian blackwood; Australian blackwood, blackwood acacia	<i>Acacia melanoxylon</i>	Fabaceae	12	LIKELY TO BE A PEST
Australian cheesewood; Victorian box	<i>Pittosporum undulatum</i>	Pittosporaceae	9	LIKELY TO BE A PEST
autograph tree; autograph tree, copey	<i>Clusia rosea</i>	Clusiaceae	4	Requires further evaluation
autumn olive; oleaster	<i>Elaeagnus umbellata</i>	Eleagnaceae	13	LIKELY TO BE A PEST
avocado; avocado	<i>Persea americana</i>	Lauraceae	3	Requires further evaluation
baby rubberplant; baby rubber plant	<i>Peperomia obtusifolia</i>	Piperaceae	-4	Not likely to be a pest
baloon vine	<i>Cardiospermum halicacabum</i>	Sapindaceae	12	LIKELY TO BE A PEST
bay rum tree; bay-rum	<i>Pimenta racemosa</i>	Myrtaceae	-3	Not likely to be a pest
be-still tree; be still tree	<i>Thevetia peruviana</i>	Apocynaceae	9	LIKELY TO BE A PEST
bishopwood	<i>Bischofia javanica</i>	Bishofiaceae	7	LIKELY TO BE A PEST
bottle gourd; gourd, 'ipu	<i>Lagenaria siceraria</i>	Cucurbitaceae	0	Not likely to be a pest
Brazilian jasmine; jasmine	<i>Jasminum fluminense</i>	Oleaceae	16	LIKELY TO BE A PEST
Brazilian nightshade	<i>Solanum seaforthianum</i>	Solanaceae	9	LIKELY TO BE A PEST
breadfruit; breadfruit, 'ulu	<i>Artocarpus altilis</i> ( <i>Artocarpus communis</i> )	Moraceae	-12	Not likely to be a pest
Brisbane box	<i>Lophostemon confertus</i>	Myrtaceae	-3	Not likely to be a pest
broadleaf carpet grass; broad-leaved carpetgrass	<i>Axonopus compressus</i>	Poaceae	15	LIKELY TO BE A PEST

Common name(s)	Scientific name	Family	WRA score	Predicted pest status
bronze leaved clerodendrum; bronze-leaved clerodendrum	<i>Clerodendrum quadriloculare</i>	Verbenaceae	11	LIKELY TO BE A PEST
broom teatree; New Zealand tea	<i>Leptospermum scoparium</i>	Myrtaceae	3	Requires further evaluation
busy Lizzy	<i>Impatiens wallerana</i>	Balsaminaceae	6	Requires further evaluation
buttercup tree; buttercup tree	<i>Cochlospermum vitifolium</i>	Bixaceae	-4	Not likely to be a pest
button mangrove; silver buttonwood	<i>Conocarpus erectus</i>	Combretaceae	4	Requires further evaluation
calabash tree; calabash tree	<i>Crescentia cujete</i>	Bignoniaceae	-8	Not likely to be a pest
camphor tree; camphor tree	<i>Cinnamomum camphora</i>	Lauraceae	7.5	LIKELY TO BE A PEST
candle bush; candle bush	<i>Senna alata</i>	Fabaceae	10	LIKELY TO BE A PEST
Cape cheesewood; Cape pittosporum	<i>Pittosporum viridiflorum</i>	Pittosporaceae	-2	Not likely to be a pest
carrotwood; tuckeroo, carrotwood	<i>Cupaniopsis anacardioides</i>	Sapindaceae	6	Requires further evaluation
cashew tree	<i>Anacardium occidentale</i>	Anacardiaceae	0	Not likely to be a pest
cherimoya	<i>Annona cherimola</i>	Annonaceae	-4	Not likely to be a pest
Chinaberry tree; pride of India	<i>Melia azedarach</i>	Meliaceae	14	LIKELY TO BE A PEST
Chinese privet; Chinese privet	<i>Ligustrum sinense</i>	Oleaceae	11	LIKELY TO BE A PEST
climbing ylang-ylang; climbing ylang-ylang	<i>Artabotrys hexapetalus</i>	Annonaceae	-1	Not likely to be a pest
cockspur coral tree; coral tree	<i>Erythrina crista-galli</i>	Fabaceae	6	Requires further evaluation
cocoa; cacao	<i>Theobroma cacao</i>	Sterculiaceae	-5	Not likely to be a pest
coffee; arabian coffee	<i>Coffea arabica</i>	Rubiaceae	2	Requires further evaluation
common guava; guava, common guava, kuawa	<i>Psidium guajava</i>	Myrtaceae	21	LIKELY TO BE A PEST
Cooks pine; Cook pine	<i>Araucaria columnaris</i> ( <i>Araucaria cookii</i> , <i>Araucaria heterophylla</i> )	Araucariaceae	-5	Not likely to be a pest
coral ardisia; hilo holly	<i>Ardisia crenata</i>	Myrsinaceae	7	LIKELY TO BE A PEST
coral tree; tiger's claw	<i>Erythrina variegata</i>	Fabaceae	-2	Not likely to be a pest
cup of gold; cup-of-gold	<i>Solandra maxima</i>	Solanaceae	3	Requires further evaluation

Common name(s)	Scientific name	Family	WRA score	Predicted pest status
Dallis grass; dallis grass	<i>Paspalum dilatatum</i>	Poaceae	12	LIKELY TO BE A PEST
dragon tree; dragon tree	<i>Dracaena draco</i>	Agavaceae	-5	Not likely to be a pest
elephant grass; napier grass, elephant grass	<i>Pennisetum purpureum</i>	Poaceae	16	LIKELY TO BE A PEST
elephant hedge bean tree; schotia, tree fuchsia	<i>Schotia brachypetala</i>	Fabaceae	0	Not likely to be a pest
false heather	<i>Cuphea hyssopifolia</i>	Lythraceae	5	Requires further evaluation
fern tree; fern tree	<i>Filicium decipiens</i>	Sapindaceae	-3	Not likely to be a pest
fiddlewood; fiddlewood	<i>Citharexylum spinosum</i>	Verbenaceae	7	LIKELY TO BE A PEST
Fiji fan palm; Fiji Fan palm	<i>Pritchardia pacifica</i>	Palmae	-4	Not likely to be a pest
Florida clover ash; (no common name)	<i>Tetrazygia bicolor</i>	Melastomataceae	3	Requires further evaluation
Florida royal palm; royal palm	<i>Roystonea regia</i>	Arecaeaceae	0	Not likely to be a pest
Formosan koa; Formosan koa	<i>Acacia confusa</i>	Fabaceae	9	LIKELY TO BE A PEST
frangipani; plumeria, temple tree, Mexican frangipani	<i>Plumeria rubra</i>	Apocynaceae	-5	Not likely to be a pest
geiger tree; kou haole	<i>Cordia sebestena</i>	Boraginaceae	-1	Not likely to be a pest
German ivy; German ivy	<i>Delairea odorata</i>	Asteraceae	14	LIKELY TO BE A PEST
Glossy privet; tree privet	<i>Ligustrum lucidum</i>	Oleaceae	6	Requires further evaluation
gold tree; gold tree, prima vera	<i>Tabebuia donnell-smithii</i>	Bignoniaceae	-4	Not likely to be a pest
golden shower tree; golden shower tree	<i>Cassia fistula</i>	Fabaceae	3	Requires further evaluation
Guinea grass; guinea grass	<i>Panicum maximum</i>	Poaceae	17	LIKELY TO BE A PEST
Hawaiian bamboo; 'ohe	<i>Schizostachyum glaucifolium</i>	Poaceae	0	Not likely to be a pest
Indian banyon; Indian banyan	<i>Ficus benghalensis</i>	Moraceae	3	Requires further evaluation
Indian beech; pongamia	<i>Pongamia pinnata</i>	Fabaceae	6	Requires further evaluation
Indian rubberplant; Indian rubber tree	<i>Ficus elastica</i>	Moraceae	-5	Not likely to be a pest
Indonesian gum; rainbow eucalyptus, Mindanao gum	<i>Eucalyptus deglupta</i>	Myrtaceae	2	Requires further evaluation

Common name(s)	Scientific name	Family	WRA score	Predicted pest status
iron wood; ironwood, paina, short leaf ironwood	<i>Casuarina equisetifolia</i>	Casuarinaceae	15	LIKELY TO BE A PEST
ivy gourd; ivy gourd	<i>Coccinia grandis</i>	Cucurbitaceae	21	LIKELY TO BE A PEST
Japanese cedar; japanese cedar	<i>Cryptomeria japonica</i>	Taxodiaceae	-3	Not likely to be a pest
Joannis palm; Joannis palm, Fiji ivory palm	<i>Veitchia joannis</i>	Arecaeaceae	-1	Not likely to be a pest
kikuyu grass; kikuyu grass	<i>Pennisetum clandestinum</i>	Poaceae	18	LIKELY TO BE A PEST
kolomona; kolomona	<i>Senna surattensis</i> ( <i>Cassia glauca</i> [per MCAC/MCPP])	Fabaceae	0	Not likely to be a pest
leucaena; koa-haole, koa haole, haole koa	<i>Leucaena leucocephala</i>	Fabaceae	15	LIKELY TO BE A PEST
loquat; loquat	<i>Eriobotrya japonica</i>	Rosaceae	.5	Not likely to be a pest
Macarthur palm; MacArthur palm	<i>Ptychosperma macarthurii</i>	Arecaeaceae	2	Requires further evaluation
Madagascar periwinkle; Madagascar periwinkle	<i>Catharanthus roseus</i>	Apocynaceae	2	Requires further evaluation
Manila palm; Manila palm	<i>Veitchia merrillii</i>	Arecaeaceae	-2	Not likely to be a pest
matt grass; lippia	<i>Phyla nodiflora</i>	Verbenaceae	5	Requires further evaluation
Mexican creeper; mexican creeper, mountain rose	<i>Antigonon leptopus</i>	Polygonaceae	19	LIKELY TO BE A PEST
Mexican daisy; daisy fleabane	<i>Erigeron karvinskianus</i>	Asteraceae	11	LIKELY TO BE A PEST
mondo grass; mondo grass	<i>Ophiopogon japonicus</i>	Liliaceae	3	Requires further evaluation
monkey apple; tree jasmine	<i>Posoqueria latifolia</i>	Rubiaceae	-2	Not likely to be a pest
monkeypod tree; monkeypod tree	<i>Samanea saman</i>	Fabaceae	4	Requires further evaluation
Monterey pine; Monterey pine	<i>Pinus radiata</i>	Pinaceae	5	Requires further evaluation
Montgomery palm; Montgomery palm	<i>Veitchia montgomeryana</i>	Arecaeaceae	-1	Not likely to be a pest
mother of cocoa; madre de cacao	<i>Gliricidia sepium</i>	Fabaceae	-3	Not likely to be a pest
narrowleaf firethorn; firethorn	<i>Pyracantha angustifolia</i>	Rosaceae	13	LIKELY TO BE A PEST
olive tree; silver olive	<i>Olea europaea</i>	Oleaceae	6	Requires further evaluation

Common name(s)	Scientific name	Family	WRA score	Predicted pest status
papaya; papaya	<i>Carica papaya</i>	Caricaceae	2	Requires further evaluation
para grass; california grass	<i>Brachiaria mutica</i>	Poaceae	12	LIKELY TO BE A PEST
passion fruit; liliko'i, passion fruit	<i>Passiflora edulis</i>	Passifloraceae	6	Requires further evaluation
peacock tree; false wiliwili	<i>Adenanthera pavonina</i>	Fabaceae	7	LIKELY TO BE A PEST
Peruvian pepper tree; California pepper tree	<i>Schinus molle</i>	Anacardiaceae	10	LIKELY TO BE A PEST
photina; photinia	<i>Photinia davidiana</i>	Rosaceae	-2	Not likely to be a pest
pila; fish poison plant, 'ahuhu	<i>Tephrosia purpurea</i>	Fabaceae	7	LIKELY TO BE A PEST
pink knotweed; pink-clover	<i>Polygonum capitatum</i>	Polygonaceae	13	LIKELY TO BE A PEST
pink shower tree; pink/white shower tree	<i>Cassia javanica</i>	Fabaceae	-1	Not likely to be a pest
pink trumpet-tree; pink tecoma	<i>Tabebuia heterophylla</i>	Bignoniaceae	1	Requires further evaluation
plum pine; podocarpus	<i>Podocarpus elatus</i> ( <i>Podocarpus neriifolius</i> [per MCAC/MCPP])	Podocarpaceae	-2	Not likely to be a pest
Polynesian arrowroot; arrowroot, pia	<i>Tacca leontopetaloides</i>	Taccaceae	0	Not likely to be a pest
Port Jackson fig; Port Jackson Fig	<i>Ficus rubiginosa</i>	Moraceae	7	LIKELY TO BE A PEST
queen's crape myrtle; giant crape myrtle	<i>Lagerstroemia speciosa</i>	Lythraceae	-4	Not likely to be a pest
red ginger; red ginger, 'awapuhi-'ula'ula	<i>Alpinia purpurata</i>	Zingiberaceae	4	Requires further evaluation
rockweed; rockweed, artillery plant	<i>Pilea microphylla</i>	Urticaceae	6	Requires further evaluation
rose myrtle; rose myrtle	<i>Rhodomyrtus tomentosa</i>	Myrtaceae	8	LIKELY TO BE A PEST
royal poinciana; royal poinciana	<i>Delonix regia</i>	Fabaceae	-1	Not likely to be a pest
satin leaf; satin leaf	<i>Chrysophyllum oliviforme</i>	Sapotaceae	4	Requires further evaluation
sea grape; sea grape	<i>Coccoloba uvifera</i>	Polygonaceae	-5	Not likely to be a pest
sea putat; hutu	<i>Barringtonia asiatica</i>	Lecythidaceae	-8	Not likely to be a pest
seashore paspalum	<i>Paspalum vaginatum</i>	Poaceae	7	LIKELY TO BE A PEST
shampoo ginger; shampoo ginger, 'awapuhi kua hiwi,'awapuhi	<i>Zingiber zerumbet</i>	Zingiberaceae	-1	Not likely to be a pest

Common name(s)	Scientific name	Family	WRA score	Predicted pest status
shavingbrush tree; bombax	<i>Pseudobombax ellipticum</i>	Bombacaceae	-2	Not likely to be a pest
shoebuttan ardisia; shoebuttan ardisia	<i>Ardisia elliptica</i>	Myrsinaceae	11	LIKELY TO BE A PEST
silverleaf cotoneaster; cotoneaster	<i>Cotoneaster pannosus</i>	Rosaceae	7	LIKELY TO BE A PEST
siratro	<i>Macroptilium atropurpureum</i>	Fabaceae	7	LIKELY TO BE A PEST
snow bush	<i>Breynia disticha</i>	Euphorbiaceae	-5	Not likely to be a pest
southern magnolia; magnolia	<i>Magnolia grandiflora</i>	Magnoliaceae	0	Not likely to be a pest
St. Augustine grass; buffalo grass	<i>Stenotaphrum secundatum</i>	Poaceae	15	LIKELY TO BE A PEST
star jasmine; star jasmine	<i>Jasminum multiflorum</i>	Oleaceae	2	Requires further evaluation
strawberry guava; strawberry guava, waiawi	<i>Psidium cattleianum</i>	Myrtaceae	18	LIKELY TO BE A PEST
strawberry saxifrage; strawberry geranium	<i>Saxifraga sarmentosa</i>	Saxifragaceae	3	Requires further evaluation
tamarind; tamarind	<i>Tamarindus indica</i>	Fabaceae	-3	Not likely to be a pest
thatch palm; thrinax palm	<i>Thrinax parviflora</i>	Arecaeaceae	-6	Not likely to be a pest
tipu tree; tipu	<i>Tipuana tipu</i>	Fabaceae	0	Not likely to be a pest
toporite; lantern tree	<i>Hernandia sonora</i>	Hernandaceae	-5	Not likely to be a pest
traveller's palm; traveler's tree	<i>Ravenala madagascariensis</i>	Strelitziaceae	5	Requires further evaluation
tree heliotrope; beach heliotrope, tahinu	<i>Tournefortia argentea</i>	Boraginaceae	-1	Not likely to be a pest
treedaisy; tree daisy	<i>Montanoa hibiscifolia</i>	Asteraceae	13	LIKELY TO BE A PEST
tropical almond; tropical almond, false kamani	<i>Terminalia catappa</i>	Combretaceae	4	Requires further evaluation
tropical ash; tropical ash	<i>Fraxinus uhdei</i>	Oleaceae	0	Not likely to be a pest
weeping fig; weeping fig	<i>Ficus benjamina</i>	Moraceae	4	Requires further evaluation
West Indian mahogany; mahogany	<i>Swietenia mahagoni</i>	Meliaceae	-6	Not likely to be a pest
wild pepper	<i>Capsicum frutescens</i>	Solanaceae	5	Requires further evaluation
Winin palm; Winin palm	<i>Veitchia winin</i>	Arecaeaceae	-4	Not likely to be a pest
woman's-tongue tree; siris, white monkeypod tree	<i>Albizia lebbek</i>	Fabaceae	7	LIKELY TO BE A PEST
wood rose	<i>Merremia tuberosa</i>	Convolvulaceae	12	LIKELY TO BE A PEST

Common name(s)	Scientific name	Family	WRA score	Predicted pest status
yellow bells	<i>Tecoma stans</i>	Bignoniaceae	8	LIKELY TO BE A PEST
yellow necklacepod; silver bush	<i>Sophora tomentosa</i>	Fabaceae	-3	Not likely to be a pest
